Spring Wildflower Photography Workshop

Sharon Fisher
PHOTOGRAPHY

April wildflowers celebrate Mother Nature's glorious emergence from winter. The Shenandoah Valley has a spectacular array of spring wildflowers that are perfect subjects for photography. Sharon Fisher, local photographer, will present simple techniques for photographing wildflowers.

This presentation focuses on how to compose wildflower photos using any type of camera or smartphone. We will provide advice on settings and share great locations for viewing and photographing wildflowers. Bring your camera or smartphone along to review different settings and to practice taking photos of potted flowers in the classroom. An additional hands-on workshop will provide instruction in the field.
